The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Dun et al.

With respect to claim 1, Dun et al disclose a process for treating a liquid from a process step in a food processing plant (e.g., a poultry processing plant, see FIG. 1), the process including filtering the liquid (see step 20 in FIG. 1), wherein substantially all contaminants are removed from the liquid (see the second paragraph of col. 3).

With respect to claim 2, Dun et al disclose a process for treating water from a process step in a food processing plant (see FIG. 1), the process including chlorinating the water (see step 16 of FIG. 1 and the first paragraph of col. 3) and then filtering the chlorinated water (see step 20 and the second paragraph of col. 3), wherein substantially all contaminants are removed from the water.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
